

Eduroam Configuration Assistant Tool (CAT)

Apple Mac Device

The Eduroam CAT tool is a customised installer which will configure your wireless card for access to the UL eduroam wireless service. The following instructions are for Apple Mac Devices.

1. Select setup_eduroam wireless network.
2. Your device will display a splash page once connected to this SSID with additional information.

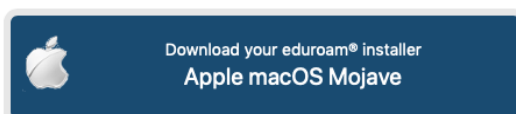

3. After you connect you will be redirected to www.ul.ie/eduroam with a step by step guide to install the eduroam wireless profile for your device.

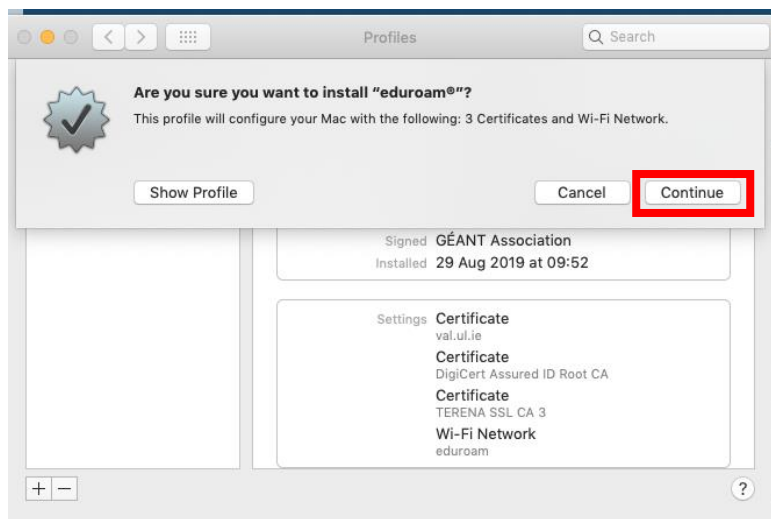

How do I install Wireless on my Mac Device

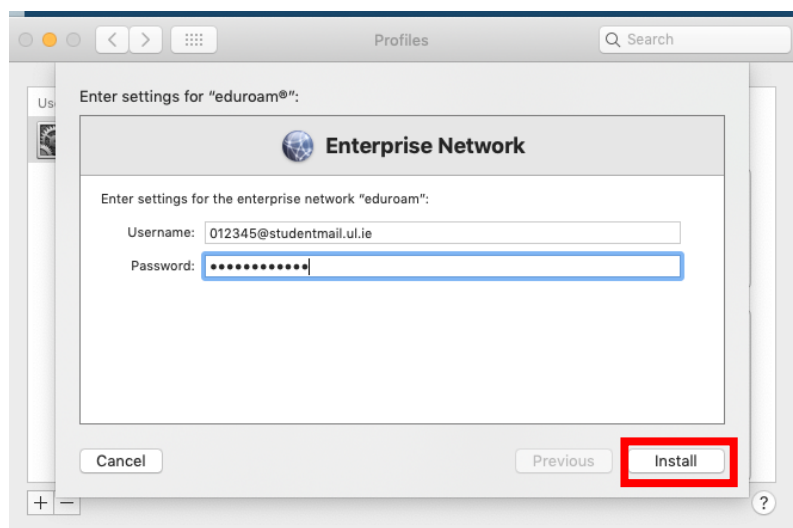

4. After you have read these steps please click on “eduroam setup” located on this page and you will be redirected to the <https://cat.eduroam.org> to download the eduroam wireless profile.
5. Select “Click here to download your eduroam installer”.
6. Select “University of Limerick” from the list of institutions.
7. Your operating system should be automatically detected.
8. Click on ‘Download your eduroam installer’.

9. You will get prompted with the below screen. Select continue to install the eduroam wireless profile.

10. Enter your username and network password:
- N.B For staff type in the form firstname.lastname@ul.ie
 - N.B For students type in the form studentid@studentmail.ul.ie

11. Click install after entered your username and password.
12. You are now connected to the Eduroam network. You can close out of the application. Verify you are connected to eduroam and not setup_eduroam.
