

# Eduroam Configuration Assistant Tool (CAT)

## IPAD/iPhone Device:

The Eduroam CAT tool is a customised installer which will configure your wireless card for access to the UL eduroam wireless service. The following instructions are for IPAD/iPhone iOS Devices.

1. Select setup\_eduroam wireless network.
2. Your device will display a splash page once connected to this SSID with additional information.

3. After you connect you will be redirected to [www.ul.ie/eduroam](http://www.ul.ie/eduroam) with a step by step guide to install the eduroam wireless profile for your device.

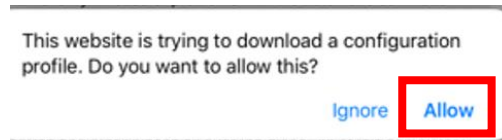

4. After you have read these steps please click on “eduroam setup” located on this page and you will be redirected to the <https://cat.eduroam.org> to download the eduroam wireless profile.
5. Select “Click here to download your eduroam installer”.
6. Select “University of Limerick” from the list of institutions.
7. Your operating system should be automatically detected.

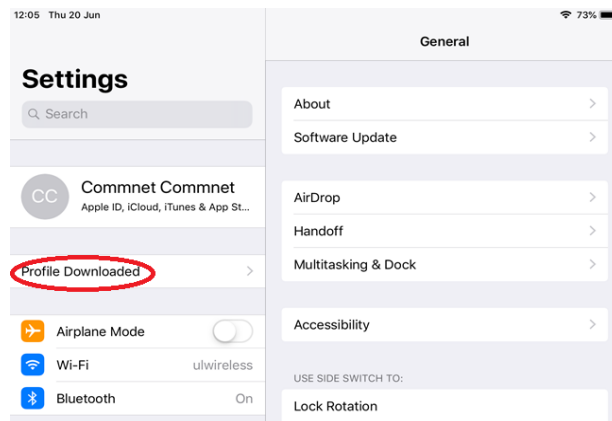

8. Click on 'Download your eduroam installer'

9. Click Allow when prompted.

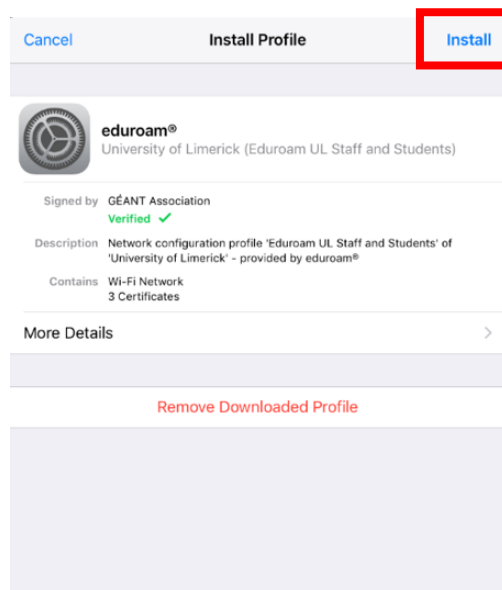

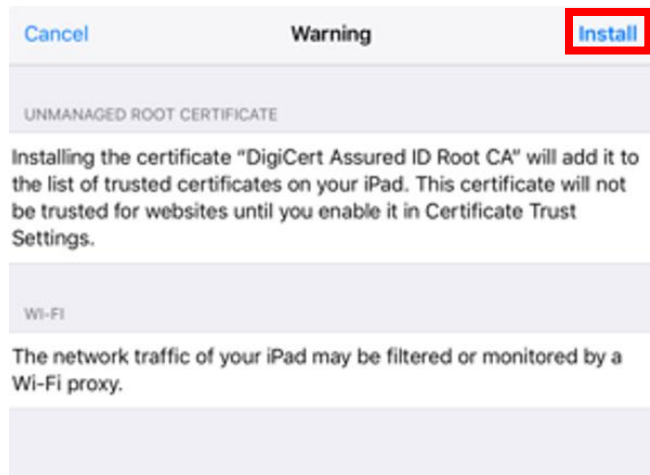

10. After the profile is downloaded it needs to be installed. Go to Settings on your device and click on "Profile Downloaded".

11. Click Install/ When prompted enter in your PIN Number

12. Click install.

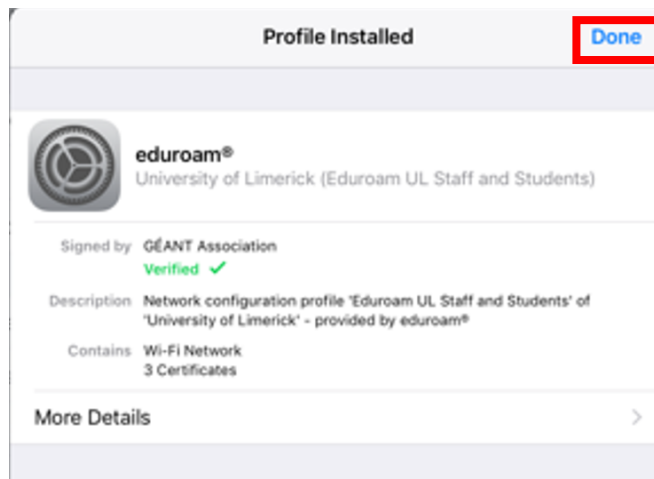

13. Enter your username and network password:

- a. N.B For staff type in the form [firstname.lastname@ul.ie](mailto:firstname.lastname@ul.ie)
- b. N.B For students type in the form [studentid@studentmail.ul.ie](mailto:studentid@studentmail.ul.ie)

14. Click Done

15. You are now connected to the Eduroam network. You can close out of the application. Verify you are connected to eduroam and not setup\_eduroam.
